

EVERGREEN

Step into an immersive experience conjured from a place of afrocentric botanical and futuristic outlooks. Beyond space, beyond race and even imagination this exhibition takes visitors on a spectacular five senses adventure through time and creation.

A jungle inspired trail can feel like a maze as you can take many directions. On the way being struck by images, figures, sounds all created with love and simple attempts of sparking joy. The all-ages experience brings a mystical inhouse safari playground combined with a luxe artistic experience with layers of mature perspective.

This tourist attraction will also hosts the work of local artists as well as outside artists. It will also be a venue space that will host live musical performances and jam sessions.

This space serves as a destination spot for events, dinners, galas, podcasts and would be available to rent.

THE EXPERIENCE NEEDS YOUR HELP
